

## Fabric Requirements:

*For 12 tumbling blocks per color you will need:*

- **3" x 44" strip of each light fabric**
- **2<sup>1/2</sup>" x 44" strip of each medium and each dark fabric**
- **6 - 2<sup>1/2</sup>" x 44" strips of black for the border and binding.**

**It doesn't have to be a solid. I chose a nice black on black bamboo print batik.**

You will have 15 fabrics in total plus the black border. If you are certain you need 12 blocks of one color, then purchase a bit more fabric just to be safe. If the bolt of fabric is not 44" wide then get double the amount so you can cut extra strips.

You can also use a fat quarter of each fabric if you are pulling from your stash but you will have leftovers. Be sure to cut your strips from the 22" length of the fat quarter and you will need at least 2 strips.
